WELCOME TO E KOMO MAI PHOTOGRAPHY

Mai specializes in small business photography. Her work includes portraits of Washington, DC area small business owners in their environment, as well as images of the products and services provided by local entrepreneurs. She also creates multi-media stories for businesses and non-profits.

- Environmental portraits
- Headshots for use on social media
- Multimedia shorts
- Product and location photography

SMALL BUSINESSES: SHOW YOUR FACES

Patrons of local businesses love to know about people behind the services and products they enjoy. Add life and value to the goods you provide your clients by showing yourself on location, creating your product, or capturing your work process. Stand out from other businesses through professional imagery. And tell your story through a combination of still photographs, video, interviews, and sound recordings in a multimedia short.

SHOW OFF YOUR WORK

Whether your small business occupies a brick and mortar location or operates exclusively online, thoughtfully planned and executed photography can showcase your product and the hard work behind it. Bring your story to life and attract new clients through professional photography.
